Cold							

No Impacts

Minimal Impacts

Moderate Impacts

Severe Impacts

WEATHER KEY POINTS

04/04/22 - 04/10/22

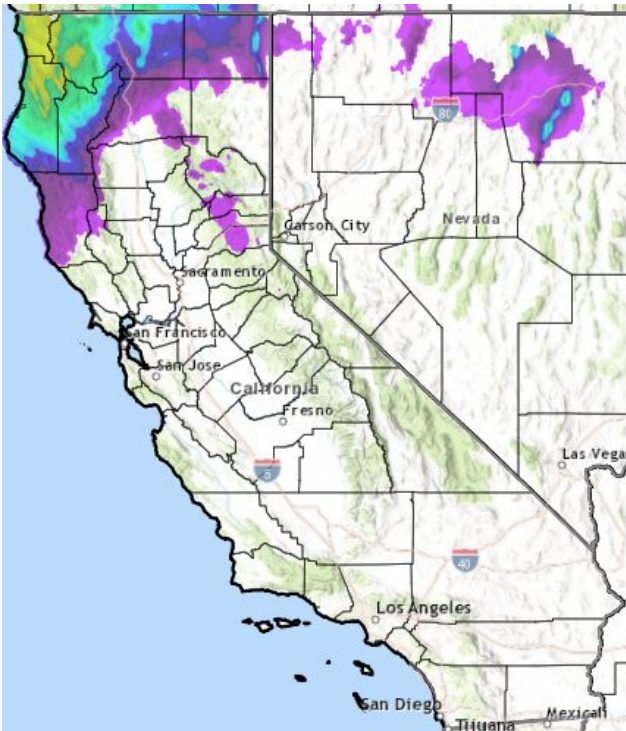

Monday - Sunday

- Very warm temperatures will continue across the state through the work week, with generally minor heat impacts
 - The warmest temperatures are expected Thursday and Friday, with record-setting high temperatures for early April possible, especially across the Central Valley
- A storm will bring showers to far northern California through Monday night; otherwise, dry weather will continue for the state through the next week
- Gusty winds will continue across the state through Tuesday, strongest in the mountains of Inland and Southern Regions
 - Gusts of 40-60 mph are possible across portions of southern California, including the Santa Barbara South Coast, the Antelope Valley, and the I-5 Corridor, which could damage trees and produce difficult driving conditions
 - Elevated to briefly critical fire weather conditions are possible in these areas
- Though winds will weaken for Wednesday through Friday, lingering gusty winds could allow elevated fire weather conditions to continue, especially in Los Angeles and Ventura counties
- Cooler and potentially wetter weather will likely develop next weekend into early next week

PRECIPITATION FORECAST

04/04/22 - 04/06/22

Monday

Tuesday

Wednesday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)
